RECOMMEND:

Matt Snow and the band were early, set up efficiently, were easygoing and fun to work with, and most of all, extremely professional. They put on a great show, including making announcements for sales and specials we had at the event, they interacted with customers and staff brilliantly, and played all evening. They checked in and confirmed dates multiple times to ensure accuracy. We thoroughly enjoyed their performance and were extremely pleased with the value they offered for their performance. We would absolutely recommend them and hire them again for event. Our corporate office attendees were raving about how wonderful they were.
